

Our other PREMIUM – PRODUCTS are:

AQUA Foam [foam material]

This newly developed foam material removes dirt so gently that every car is “tickled” and guarantees no scratches or holograms are left on the vehicle’s paintwork.

AQUA Wool [synthetic lambskin]

AQUA Wool is a washing material available only from **AQUA BRUSH** for top-notch car wash designs. This patented **multi-function system** guarantees the gentlest and quietest of washes.

AQUA Dry [synthetic drying material]

AQUA Dry is a drying material developed by **AQUA BRUSH** with a special composition of materials which, in turn, ensures efficient final drying and polishes paintwork to a mirror finish.

AQUA Pe [monofilament polythene brushes]

This excellent cleaning performance provided by the spliced ends of the material has proven its worth especially for service in commercial vehicle washes.

AQUA Felt

[washing felt]

TUNNEL CAR WASHES
GANTRY CAR WASHES

AQUA Felt

[washing felt]

AQUA Felt is a textile washing material providing high cleaning performance and extreme durability.

AQUA Felt distinguishes itself from other washing materials with its longevity and the low level of care needed. Our **AQUA Felt** washing material has proven its value both in tunnel and gantry car washes.

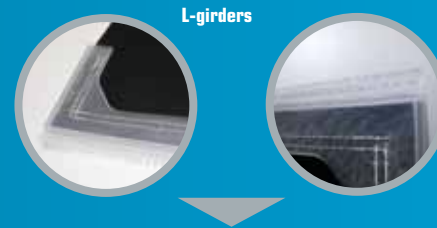

AQUA Felt promises you:

- high cleaning performance
- extremely hard-wearing
- long service life
- easy to install
- different colours

A wide range of material mounts

AQUA Felt is supplied on various fastening systems by **AQUA BRUSH**.

Sewn onto compatible fastening sheets, hand woven on Easyclick fastening mats or sewn into especially developed "L fasteners" (see picture) are the ways in which our **AQUA Felt** washing material is supplied to retailers. **AQUA BRUSH** has a solution compatible for virtually every fastening system.

Product example

Ready for the dirty work ...

that's our **AQUA Felt** washing material. This washing material is manufactured by "needling" polyethylene and/or polypropylene fibres in large production facilities. Following completion of the base material, elaborate refining work is still necessary before our PREMIUM washing material **AQUA Felt** can be cut to size. There are a lot of car wash operators who swear by this washing material.

SUITABLE FOR: TUNNEL CAR WASHES GANTRY CAR WASHES

Available in the following colours:

blue | grey | red | black | green
